# EHR for the physician. Seamless flow between patient encounters and your billing service. Simply no easier way to capture charges.

## Integrated for Improved ROI

The ROI on electronic health record (EHR) utilization is maximized when it's integrated with the practice management and billing systems. ADP AdvancedMD cloud EHR and practice management software has been developed from the ground up as an integrated solution to ensure that clinical and business functions work in unison. This enables the most seamless user experience and most efficient coordination of data exchange between scheduling, charting and financial reporting applications.

## Freedom & Access

In an environment where anywhere access is paramount, the ADP AdvancedMD cloud means new levels of freedom. You gain access to software applications and patient data from anywhere. You can reduce IT hassles and costly downtime that can result from manual software upgrades.

## HIPAA Security

Safeguarding medical patient and financial records is a major benefit of the ADP AdvancedMD cloud platform. Medical records security significantly improves and helps you achieve greater HIPAA compliance. Records are protected by secure data centers in the same manner that banking institutions manage financial data. You receive hourly data backups, performed automatically.

## Capture Stimulus Dollars

ADP AdvancedMD EHR is ONC-ACTB Certified and is an ideal way to create a paperless office. The EHR offers the flexibility of anywhere-access and is available with a variety of clinical features, including an online Patient Portal. You gain tangible financial rewards with the ability to chart patients faster, qualify for maximum stimulus dollars, and receive more timely reimbursements.

## Life in the Cloud, all about Freedom

You gain freedom to access software and patient data and freedom from IT hassles. More than the efficiencies of a paperless office, you gain a complete set of EHR and practice management features that can all be securely accessed anywhere you need to be—even from home. Our cloud offers higher speeds than traditional software running over wide area networks due to lesser bandwidth requirements. You are able to reduce hardware requirements and costs. There are no licensing, usage or server fees.

## Speed & Performance

The ADP AdvancedMD cloud offers faster speeds than traditional software running over wide area networks due to lesser bandwidth requirements. You are able to reduce hardware requirements and costs. There are no licensing, usage or server fees.

## Integrated Communications

Another way ADP AdvancedMD EHR helps you reduce administrative costs is through integrated communication and information exchanges between multiple systems such as labs, imaging centers, hospitals and Health Information Exchanges (HIEs). You can benefit from immediate savings in labor as well as reduced hassle from managing disparate systems.
